WORLD BANK GNI CLASSIFICATION, TABLE OF ECONOMIES BY CATEGORY**

From the International Sociological Association (ISA) website, www.isa-sociology.org, which lists this source: "The World Bank, September 2008, www.worldbank.org : For operational and analytical purposes, the World Bank's main criterion for classifying economies is gross national income (GNI) per capita. This classification does not necessarily reflect development status."

A COUNTRIES

Andorra	Canada	Germany	Korea	Puerto Rico
