

WORLD BANK COUNTRY CLASSIFICATIONS

General Registration rates for the 2012 International Conference on Law and Society are based on *country of residence* according to tables from the International Sociological Association (ISA) used to determine member dues levels. The data in turn comes from the World Bank classification of country economies, based gross national income (GNI) per capita <http://data.worldbank.org/country> . ISA also uses the WB classification for their international membership category.

COUNTRY TABLE 1: HIGH INCOME ECONOMIES

Andorra	Curacao	Guam	Macao SAR, Cn	Saudi Arabia
Aruba	Cyprus	Hong Kong SAR, Cn	Malta	Singapore
Australia	Czech Rep.	Hungary	Monaco	Slovak Republic
